Diversified Technical Services, Inc. (DTSI) – DTSI is a Small Business (SB) with headquarters in Texas. DTSI has over 30 years of experience managing and performing Information Technology (IT) and Telecommunication services for government and commercial customers. DTSI's information technology services are varied and encompass a wide range of technical services including software development, web development, network support, systems engineering, help desk support and IT facilities management. Our telecommunications services range from engineering services and implementation to a host of Wireless 802.x support services. DTSI personnel employ the latest information technologies, tools and a variety of enterprise-scale platforms to deliver low-risk effective solutions. DTSI offers its customer time tested, proven and validated solutions encompassing consistent and effective performance. One current example includes development and sustainment of a refined state-of-the-art collective suite of enterprise scale systems comprising the Military Personnel Data System (MILPDS) for the United States Air Force Personnel Center (AFPC). Beginning in 1992, DTSI (as the prime contractor) was instrumental in the modernization of this enterprise-scale system used globally by the warfighter. Three decades of experience have enabled the assembly of a team with domain and technical skills that have provided effective solutions to satisfy the complex missions of military and civilian customers worldwide. DTSI has classified and unclassified environment experience and a Top Secret facility clearance. DTSI consistency and program processes have been validated via its CMMI level 3 accreditations.

Northrop Grumman – Northrop Grumman is a leading global security company providing innovative systems, products and solutions in unmanned systems, cyber, C4ISR, and logistics and modernization to government and commercial customers worldwide.

We hold ourselves to a higher standard, both in the products we deliver and in the way we conduct ourselves throughout the entire customer experience. Because, after all, we are in the business of securing a great deal more than just our place in the market.

Our mission is to be at the forefront of technology and innovation, delivering superior capability in tandem with maximized cost efficiencies. The security solutions we provide help secure freedoms for our nation as well as those of our allies. Squarely meeting our obligations, fiscally and technologically, isn't just a business goal, but a moral imperative. To that end, as we evolve as a company, the responsibility we feel for our country and the citizens and troops we help support grows with us.

Nova Technology Solutions – Nova Technology Solutions (NovaTech) started in 2004 as a small business focused on providing technical services to the US Air Force. Since that time, NovaTech continues to expand and evolve as a company with a growing portfolio of service offerings. NovaTech is a Service-Disabled Veteran-Owned Small Business (SDVOSB) with senior leaders that have over 125 years of combined acquisition, engineering, and IT experience. The majority of our employees are military veterans, previous civil service personnel or seasoned commercial consultants with broad experience in information technology, enterprise solutions and infrastructure technologies. NovaTech's senior management team focuses on high customer satisfaction, employee growth, and fiscal responsibility. We provide top-notch technical, acquisition, and program management support to our customers.

At the national level, we provide senior-level technical, acquisition, and program management support to Government customers across a range of departments and agencies. Our staff delivers full life-cycle support from requirements to implementation, for programs that deliver capability at the enterprise level. Our core offerings include: program management; information technology (IT) architecture; systems integration; data solutions; Commercial-Off-The-Shelf (COTS) integration; infrastructure solutions; systems engineering; and modeling and simulation.

On a more regional level, we provide IT services to commercial, local government, and non-profit organizations throughout Southwest Ohio. With our experience solving issues at the enterprise level, we are able to assist organizations looking for more than a simple network/PC break fix service provider. Our relationship with leading technology vendors enables us to provide turnkey solutions to meet our customers' business challenges.

SI Systems Technologies (SIST), LLC – SIST is a joint venture between Stanfield Systems Inc. and Infinite Technologies Inc. Both companies realized synergies in regards to dedication, commitment, and value. In today's Defense Contractor industry, too many news stories arise reporting fraud, waste, and abuse by contractors concerned with bottom line as opposed to delivering quality products/solutions at a fair price. Leadership from both Stanfield Systems and Infinite Technologies agree that such policies are unacceptable and out of the question relative to our business practices. By joining forces, SSI and ITI, form a complete solution with qualities that rival larger entities and corporations without sacrificing overhead costs. Being lean, able to leverage the right skills at the right time are the cornerstone of SI Systems Technologies existence.

We are owned and managed by an experienced and knowledgeable team of Air Force and Army Veterans, as well as former DO Civil Servants and experts from Industry with tenured expertise. Experienced Personnel in Performing Classified and Non Classified Contracts: In-House FSO

TACG – Founded in 2006, TACG, LLC (TACG) is a Federally Recognized Alaskan Tribal 8(a) Certified firm focused on the public sector and aerospace industries. Despite our small business status, we consistently deliver on large-scale projects because of our broad scope of capabilities, our handpicked staff of consultants, and our diverse partner network. Yet we still offer a personal touch that only a small business can provide.

TACG is committed to helping organizations achieve greater flexibility and efficiency. Combined with our Acquisition/Program Management, Engineering Services, Enterprise Services, Logistics and Supply Chain Services, and Technology/Infrastructure Solutions offerings, our forward-thinking approach to consulting helps organizations connect existing technologies with emerging solutions to do more, with less, for less.

Our holding company, Alaskan Native General Services (ANGS), manages over \$100M in revenue annually. They are constantly producing new organizations and growing at an exponential rate. This provides us with significant financial reach back that supports TACG acting as the Prime Contractor on large initiatives.
